

Essentials of Biological Anthropology (Selected Chapters)

Pavel Bláha – Charles Susanne – Esther Rebato (eds.)

Prague, Karolinum Press, scheduled 2006, paperback, first edition

This volume deals with important current anthropological topics. Written by distinguished and well-known scholars from Spain, Czech Republic and Belgium it offers reader a good overview of the modern anthropology. Its content ranges from growth and development of human being to genetics, from human evolution to population genetics, and even to applied anthropology. The chapters are subdivided into four sections: 1st How to define anthropology, 2nd Evolution, 3rd From Growth to Senescence, 4th Anthropology and Society and 5th Applied Anthropology. The volume is accompanied by a vast number of tables, charts and B&W pictures
